NOTE ON THE PARTICIPATION OF OIC COUNTRIES IN FAIRS AND EXHIBITIONS

In recent years, there has been a decline in the participation of OIC Member Countries in Fairs and Exhibitions organized by ICDT. The Center has conducted a survey to identify the reasons behind this lethargy, which resulted in the identification of the following causes, also mentioned by the World Association of the Exhibition Industry (UFI), based in Paris:

- **Use of e-marketing via social media and virtual fairs which have become tools for promoting products and services with low-cost.**
- **Many event companies have moved from their core business, i.e. media and advertising to the organization of fairs and exhibitions, leading to fierce competition in this industry.**
- **Privatization of the industry and increase of the number of exhibitions in the same sectors.**
- **The economic and financial crisis had a negative impact on the budgets allocated by Trade Promotion Organs for the participation in fairs and exhibitions.**
- **Another trend in the exhibition industry is the holding of more bilateral B2B trade missions and B2B events.**

To alleviate this problem and to ensure a massive participation of Member States and economic operators in the various editions of the OIC trade fairs, and to improve their efficiency and following a resolution of the Board of Directors of the ICDT ; the 32nd Ministerial Session of the COMCEC adopted an amendment to the Rules of Procedure of the OIC Trade Fair by adding a new clause to Article 2, specifying:

- **Any candidate (country) to host the Islamic trade fair or a specialized exhibition must meet the following conditions:**
- **The chosen venue must have a fairground with international standards;**
- **The co-organizing company (responsible for organizing the fairs in the host country) must have a solid experience in organizing international exhibitions;**
- **The co-organizing company must have a strong financial resources;**
- **The selected city must be connected by regular flights;**
